

INDEX FOR VOLUME 49

Articles

- Anderson, James C. & Gerbing, David W. The effect of sampling error on convergence, improper solutions, and goodness-of-fit for maximum likelihood confirmatory factor analysis. 155-173.
- Carroll, J. Douglas (see DeSarbo, Wayne S.)
- Carroll, J. Douglas (see De Soete, Geert)
- Carroll, J. Douglas (see Weinberg, Sharon L.)
- Clark, Linda A. (see DeSarbo, Wayne S.)
- Cliff, Norman (see Reynolds, Thomas J.)
- Cohen, Harvey S. (see Weinberg, Sharon L.)
- De Leeuw, Jan. Differentiability of Kruskal's stress at a local minimum. 111-113.
- De Leeuw, Jan & Stoop, Incke. Upper bounds for Kruskal's stress. 391-402.
- Derflinger, Gerhard. A loss function for alpha factor analysis. 325-330.
- DeSarbo, Wayne S., Carroll, J. Douglas, Clark, Linda A. & Green, Paul E. Synthesized clustering bases with differential weighting of variables. 57-78.
- DeSarbo, Wayne S. & Mahajan, Vijay. Constrained classification: The use of a priori information in cluster analysis. 187-215.
- DeSarbo, Wayne S. (see De Soete, Geert)
- De Soete, Geert, DeSarbo, Wayne S., Furnas, George W. & Carroll, J. Douglas. The estimation of ultrametric and path length trees from rectangular proximity data. 289-310.
- Embretson (Whitely), Susan. A general latent trait model for response processes. 175-186.
- Furnas, George W. (see De Soete, Geert)
- Gerbing, David W. (see Anderson, James C.)
- Green, Paul E. (see DeSarbo, Wayne S.)
- Grieve, A. P. Tests of sphericity of normal distributions and the analysis of repeated measures designs. 257-267.
- Hubert, Lawrence J. Statistical applications of linear assignment. 449-473.
- Iachan, Ronaldo. A family of differentiation indices. 217-222.
- Israels, Abby Z. Redundancy analysis for qualitative variables. 331-346.
- Jennrich, Robert I. (see Lee, Sik-Yum)
- Kelderman, Hendrikus. Loglinear Rasch model tests. 223-245.
- Lee, Sik-Yum & Jennrich, Robert I. The analysis of structural equation models by means of derivative free nonlinear least squares. 521-528.
- Mahajan, Vijay (see DeSarbo, Wayne S.)
- Masters, Geoffrey N. & Wright, Benjamin D. The essential process in a family of measurement models. 529-544.
- Mislevy, Robert J. Estimating latent distributions. 359-381.
- Nishisato, Shizuhiko. Forced classification: A simple application of a quantification method. 25-36.
- Nishisato, Shizuhiko & Sheu, Wen-Jenn. A note on dual scaling of successive categories data. 493-500.
- Poole, Keith T. Least squares metric, unidimensional unfolding. 311-323.
- Ramsay, J. O., Ten Berge, Jos & Styan, G. P. H. Matrix correlation. 403-423.
- Reynolds, Thomas J. & Cliff, Norman. An interactive preference ordering model and its monte carlo evaluation. 247-255.
- Rindskopf, David. Using phantom and imaginary latent variables to parameterize constraints in linear structural models. 37-47.
- Rosenbaum, Paul R. Testing the conditional independence and monotonicity assumptions of item response theory. 425-435.
- Sheu, Wen-Jenn (see Nishisato, Shizuhiko)
- Skinner, C. J. On the geometric approach to multivariate selection. 383-390.
- Steiger, James H. The comparison of interdependent correlations between optimal linear composites. 11-24.
- Steinberg, Lynne (see Thissen, David)
- Stoop, Incke (see De Leeuw, Jan)
- Styan, G. P. H. (see Ramsay, J. O.)
- Tatsuoka, Kikumi K. Caution indices based on item response theory. 95-110.
- Ten Berge, Jos M. F. A joint treatment of varimax rotation and the problem of diagonalizing symmetric matrices simultaneously in the least squares sense. 347-358.
- Ten Berge, Jos M. F. & Knol, Dirk L. Orthogonal rotations to maximal agreement for two or more matrices of different column orders. 49-55.
- Ten Berge, Jos M. F. (see Ramsay, J. O.)
- Thissen, David & Steinberg, Lynne. A response model for choice items. 501-519.

- Van de Geer, John P. Lineart relations among k sets of variables. 79–94.
- Weinberg, Sharon L., Carroll, J. Douglas & Cohen, Harvey S. Confidence regions for INDSCAL using the jackknife and bootstrap techniques. 475–491.
- Wright, Benjamin D. (see Masters, Geoffrey N.)

Notes and Comments

- de Gruijter, Dato N. M. A comment on 'some standard errors in item response theory.' 269–272.
- Gokhale, D. V. & Sirtonik, B. W. On tests for correlated proportions in the presence of incomplete data. 147–152.
- Harris, P. An alternative test for multisample sphericity. 273–275.
- Mooijjaart, Ab. The nonconvergence of factals: A nonmetric common factor analysis. 143–145.
- Sirtonik, B. W. (see Gokhale, D. V.)

Reviews

- Jones, Lawrence E. Review of *Introduction to Multidimensional Scaling: Theory, Methods and Applications* by S. S. Schiffman, M. L. Reynolds and F. W. Young. 277–280.
- Lord, Frederic M. Review of *Item Response Theory-Application to Psychological Measurement* by C. L. Hulin, F. Drasgow and C. K. Parsons. 281–283.
- Ramsay, J. O. Review of *Understanding Robust and Exploratory Data Analysis* by D. Hoaglin, F. Mosteller and J. W. Tukey (Eds.). 284.

Errata

- Nishisato, Shizuhiko. Errata for forced classification: A simple application of a quantification method. 436.
