

Scientist: UW-Center for Tobacco Research and Intervention

UW-CTRI seeks a Scientist to analyze study data, assist in writing analytical/results sections of papers and grants, help design future research and advance the Center's data analysis capacities. The ideal candidate will have a PhD in a scientific/statistical field with demonstrated experience in using varied higher-level analytical methodologies, data analysis and manuscript preparation (including facility with statistical software). The Scientist will serve a variety of Center needs, including large and small data sets. Prior tobacco research experience is not required. PLS submit vita to David Fraser, UW-CTRI, 1930 Monroe St., Suite 200, Madison WI 53711, dlf@ctri.medicine.wisc.edu as soon as possible. Position is available immediately.
